SOFTWARE ENGINEER at VGTS Private Limited

2021 — Present

- Communicate with multi-disciplinary teams of engineers, designers, managers, and clients regularly.
- Implemented **automated workflows** in a CRM application using Node.js, **saving** the sales team **10 hours** per week.
- **Helped peers** build challenging features, optimize, and solve complex technical problems.
- Developed robust APIs with **authentication** using **JWT** and **OAuth**, **scheduled jobs**, **WhatsApp automation**, CSV imports, **webhooks**, and **third-party API** integration
- Integrated **payment solutions** that allowed customers to pay for products or services online easily.
- Practiced **test-driven development** to ensure code quality and maintainability, resulting in a **40% reduction in bug** occurrences.

BE. EEE, (SRM) Easwari Engineering College

2016 — 2020

HTML, CSS & JS	TypeScript
React.js & Nextjs	VueJs & NuxtJs
